

# Group Mentor Coaching

*March-May 2027 | Virtual Sessions*

To apply for an ICF credential, the ICF expects you to complete at least ten hours of mentor coaching with a qualified mentor coach. Seven of these hours can be in group settings, and at least three must happen in one-on-one meetings with the mentor coach.

In the spring of 2027, we are offering a mentor coaching cohort for students who have completed at least two coach education courses. Sessions will take place virtually over the course of at least 90 days (the ICF's required timeframe), and students will have several opportunities to receive specific, targeted feedback on their own coaching.

Upon completion of this mentor coaching program, students will have everything they need to satisfy the ICF's mentor coaching requirement for ACC credentialing.

## How Class Will Work

- We will meet virtually for one hour weekly or biweekly (depending on class size).
- Each week, one student will coach and receive feedback on their coaching.
- Students will also schedule three one-on-one meetings with the mentor coach.
- For each meeting with the mentor, students will submit a recording in advance, listen to the recording with their mentor, and receive written and oral feedback on their coaching.

## Details

- **The ICF requires all mentor coaching hours to be synchronous, therefore, attendance at all sessions is mandatory.**
- Sessions submitted for mentor evaluation should be around 30 minutes long, and can be submitted in audio or video format.
- Registration is \$750 per student. Discounts are available if multiple students are coming from the same tech center.
- Your mentor coaching registration fee also includes your ICF performance evaluation should you choose to apply for a credential.

**Contact Brady Ross at 405-833-2144 or at [brady@bradyross.com](mailto:brady@bradyross.com) to register for the class. Space is limited to 20 participants - sign up today to secure your spot!**
